

HyperFire Cable Box

User Guide

1. The key for your cable box can be found in the same bag as these instructions.

2. Before mounting the camera remove the nut from the knob and discard. Locate the metal padlock loop.

3. To close the cable box, line up the metal padlock loop with the hole in the top cover. The cable box cover will be tilted.

4. Turn the key to unlock the box. Once the key is turned the box will close and stand upright.

Mounting Options

1. Bury the mounting stake in the ground.
2. Cement the mounting stake in the ground.
3. Create a cement block on the bottom of the stake and bury the cement block when dry.

Warning!!

Never drive the cable box into the ground using the top of the mounting stake. You will damage your camera and the cable box.
